

Figure 3: Module-based Pathway for Qualified Electricians and Long-term Experienced Cablers* – Open Registration

*Long-term Experienced Cablers are technically trained staff from telecommunications, fire, security, data and computer cabling companies and statutory authorities who can be credited with completion of modules NTE001, NTE003, NTE009 (or their equivalents) using their formal RTO or employer training records. The alternative is to use the 7 module pathway provided for the Ordinary person. There is no fast track option for NTC004 /NUE190.
